OTTO

Computerized pupillometry

EVOptica

Historical source status: at publication, OTTO was undergoing testing and ANVISA approval and was not yet available for sale. This is source-time context, not a statement of current availability. Current U.S. clearance is in progress; the company's earlier products had South American clearances.

Instrument Views

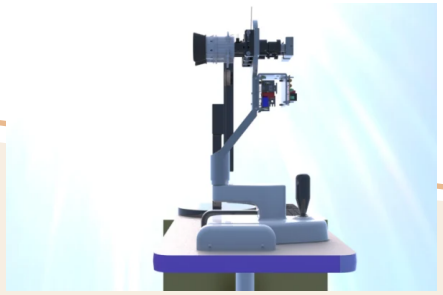

- OTTO overview.
- Front view.
- Front view without the housing.
- Side view.
- Side view without the housing.
- Three-dimensional view.
- Close-up three-dimensional view.
- Close-up three-dimensional view with the chinrest removed.

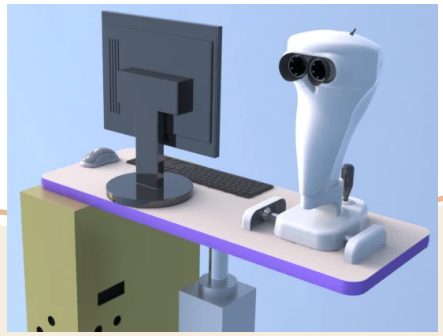

OTTO - Computerized Pupillometry

The OTTO archive presents a computerized pupillometry development project through mechanical-design images. It provides design views rather than numerical performance specifications.
